Dated Bangalore 15 June 1928

Despatched

Received

General No 10831

Enclosure No

Subject - Constructing Button stalls at Davangere

Has the honour to forward herewith the plan and estimate amounting to - - - Rs 9,889/- for the above work, received from the General Secretary to Government and to observe as follows -

(1) The estimate as scrutinised in this office amounts to Rs 10,400/- and the excess is due to some short provision and calculation

(2) There are too many corrections of dimensions on the plan in red ink A separate blue print is necessary marking thereon the correct dimensions to avoid confusion during execution

(3) No provision is made in the estimate for the following works which are shown on the plan:-

(a) Construction of a wall 6' diameter over the platform

(b) Partition walls 9" thick are shown on the plan, but curb stones are provided between the stalls Some are scored out in red ink This will lead to confusion It is not clear how these curb stones will stand on loose earth

(4) Wooden breasummer has been proposed between the pillars where the iron hooks and chains are proposed to fix to carry the carcasses Section of 4" and 6" A wooden breasummer seems not sufficient to carry the load

(5) Iron railing seems necessary

(6) The section on AB has been drawn on ordinary foolscap paper This should have been done on tracing cloth or drawing sheet as per Circular orders

(7) A report must be submitted with the estimate

2 A proper project could be prepared and submitted at an early date for submission to Government
